

Hopebed

Owner Contact Plan — First 5 Properties

Navi Mumbai / Panvel launch cohort — built from your Owner Validation Pack

Goal: get real responses from these 5 owners, learn their actual objection, and confirm at least 2 willing to list — before spending on anything beyond outreach.

1. Priority Order — Fastest Likely Yes First

#	Property	Area	Why this order
1	Sai Fortune Hostel	Kharghar Sec 19	No-brokerage positioning already — most aligned with Hopebed's pitch. Real email on file as backup.
2	Deccan PG & Hostel	New Panvel / Vichumbe	Already active on 7+ platforms incl. Rentok — tech-comfortable, will grasp the pitch fast.
3	Vijay Cozy Corner Hostel	Ulwe Sec 8	Spread across 9 channels (incl. Agoda, Skyscanner, TripAdvisor) — real listing-coordination pain to hook.
4	Marshal Enterprise	Kharghar Sec 3	Basic digital presence — Hopebed is an upgrade, not a replacement; needs a bit more explaining.
5	StayZone Hostels	Kharghar	240+ beds, dedicated site, most 'run like a business' of the five — slower, more considered decision.

2. Per-Owner Message Angle

Use one specific, researched detail in the opening line instead of a generic "I noticed you're on multiple platforms" — it signals you actually looked at their property, not a mass message.

Property	Lead with	Specific detail to reference	Best number to try first
Sai Fortune Hostel	Fragmented channels & phones	3 contact numbers listed — ask early which one they actually prefer for ongoing contact.	+91 9004115263
Deccan PG & Hostel	Consolidation opportunity	Their live Rentok listing (rentok.com/property/deccan) — their most active channel.	+91 9972250562
Vijay Cozy Corner Hostel	9-channel listing spread	Unusual mix for a PG — Agoda, Skyscanner, TripAdvisor alongside Justdial/Instagram.	+91 99200 10092
Marshal Enterprise	Basic digital presence	94 beds on just Justdial + own site — frame as their first real upgrade.	+91 9284664533
StayZone Hostels	WhatsApp-led bookings at scale	7+ properties / 240+ beds — pain is response time and lead tracking, not visibility.	+91 8452889995

3. Contact Cadence

Day	Action	Notes
Day 0	WhatsApp all 5, same morning (10-11am), 10-15 min apart	Use the tailored opener above. Mark 'WhatsApp Sent' in the tracker the moment each goes out.

Day	Action	Notes
Same day (if reply)	Move to 30-second call opening, then the 5 validation questions	Platform time spent → vacancy process → enquiry conversion → WhatsApp response pain → trust barrier, in that order.
Day 2	Follow up only with non-responders — one specific benefit line	Use the Main Opportunity / Pain Point detail for that property, not a generic nudge.
Day 5	Switch channel for anyone still silent	WhatsApp → phone for Vijay/Marshall/StayZone. Email fallback for Deccan (none on file — use call) and Sai Fortune.
Day 9	One final polite check-in, then close the loop	Update Response / Interested? regardless of outcome — a firm 'no' with a reason is still useful data.

4. Two Small Risks to Manage

- **Multiple phone numbers:** Vijay, Marshall, and Sai Fortune each list 2-3 numbers. Message the first number only per property — contacting several numbers for the same property can look scattershot.
- **Email is a fallback, not an opener:** only StayZone and Sai Fortune have emails on file, and WhatsApp response rates are far higher for this segment. Hold email for Day 5 if WhatsApp and calls both go quiet.

5. Two Columns Worth Adding to Your Tracker

- **Platform Referenced** — which specific platform/detail you used in the opener, so you can see what's actually landing across owners.
- **Number Used** — which of the 2-3 listed contacts you messaged, so follow-ups don't get sent to the wrong number.

This week's target: all 5 contacted, at least 2 confirmed willing to list, and every objection captured — even from a 'no'.
